From

**$69/month**

up to 10 trucks

haul.rocks

WHAT HAUL.ROCKS DOES

# Fill tomorrow’s trucks in minutes, not hours.

One dispatch board replaces the whiteboard, the spreadsheet and the evening phone tree, and brings your subcontractors’ trucks onto it with a click.

**Sound familiar?** A photo of the whiteboard texted to six drivers. Three versions of tomorrow’s spreadsheet. Calling around at 8 PM to cover two loads. Chasing paper scale tickets at month end so you can invoice. haul.rocks is built to end every one of those.

### Plan the day on one board

Every job, trip, truck and driver for the day, grouped by customer.

### Run more loads per truck

Round-trip times fit a truck’s next load in once it’s back. Double-bookings are flagged first.

### Sub trucks with a click

Share overflow trips. Subs claim them and they show as covered on your board.

### Dispatchers

- ✓ One board for every job, trip, truck and driver
- ✓ Auto-Assign by truck type, tonnage and shortest empty drive
- ✓ Second and third loads per truck; double-bookings flagged
- ✓ Invoices per ton, load or hour, emailed to accounts payable
- ✓ Reports by customer, truck, driver and sub

### Drivers

- ✓ Their loads by text, email or push when you finalize the day
- ✓ Tap to navigate or call the site
- ✓ One-tap clock in and out per load
- ✓ Scale ticket photo, tons and receiver signature
- ✓ Works with no signal at the pit

### Subcontractors

- ✓ See jobs you share in one place
- ✓ Claim open trips, first come first served
- ✓ Assign their own trucks and drivers
- ✓ Pay statements by email; $10/month, any fleet size

### Your customers

- ✓ A branded request page with your yards and a map
- ✓ Requests turn into jobs in one click
- ✓ A private portal with loads, tickets, photos and invoices

haul.rocks

THE OFFER

# We take the risk, so you don’t need a sales call.

### 30 days free, every feature, no card

The full product on any fleet plan: dispatch board, Auto-Assign, driver phones, tickets, invoices, customer portal and the sub network. Nothing is held back.

### A sample day, loaded in one click

See a full day of jobs, trucks, drivers, delivered loads and an invoice before you type anything in. Remove it with one click when you add your own.

### 30-day money-back on your first payment NEW

If your first paid month isn't worth it, email us within 30 days of the charge and we refund it in full. No call, no form, no questions.

### Founding-fleet price lock NEW

Subscribe by March 31, 2027 and your price never goes up for as long as you stay subscribed.

### Up to 50% off through your subs

Each subcontractor you invite who pays and runs one of your trips takes 10% off your bill, automatically.

### Your subs get 30 days free too

Then $10/month for any fleet size. They can see, claim and run your overflow trips from day one.

### No sales calls. Ever. NEW

Questions go to an email inbox read by the people who build haul.rocks. You get a real answer within one business day.

PRICING · EVERY FEATURE ON EVERY PLAN

| PLAN | TRUCKS | MONTHLY | ANNUAL |
|---|---|---|---|
| **Small Fleet** | Up to 10 | $69/mo | $690/yr |
| **Fleet** | Up to 25 | $139/mo | $1,390/yr |
| **Large Fleet** | Up to 50 | $249/mo | $2,490/yr |
| **Enterprise** | 50+ | Custom | Talk to us |

Annual = 10 months’ price, 2 months free. Subcontractor plan $10/month, any fleet size. Network discount: 10% off per active sub you invite, up to 50%. Time tracking add-on $4/driver/month. No setup fees, per-user fees or contracts.

WHAT IT COSTS YOU TO FIND OUT

| Month one, if it isn’t worth it | **Refunded** |
| Price increases | **None** |

Price lock applies when you subscribe by March 31, 2027.

haul.rocks

WHAT HAPPENS AFTER YOU SIGN UP

# Your first 30 days, step by step.

No onboarding call, no kickoff meeting. A setup checklist inside the app walks you through it.

| | | |
|---|---|---|
| 1 | MINUTE 1 | Create your company with a name, email and password. No card. |
| 2 | MINUTE 2 | Load the sample day. Click Auto-Assign, open the driver view, look at the invoice. |
| 3 | FIRST HOUR | Follow the setup checklist: your yard, trucks, drivers, a customer, a material and your first job. |
| 4 | DAY 1 | Finalize tomorrow. Each driver gets their loads by text, email or push. |
| 5 | WEEK 1 | Invite your subs and share the trips you can't cover. They show as covered on your board. |
| 6 | DAY 30 | Add a card to keep going. Do nothing and the trial simply ends. There is no surprise charge. |

## DOES IT PAY FOR ITSELF? AN EXAMPLE

A 15-truck fleet with 2 active subs, spending 3 office hours a day on dispatch and 10 hours a month on billing, at $35/hour. If haul.rocks saves 40% of the dispatch time and 50% of the billing time:

| | |
|---|---|
| Fleet plan after 20% network discount | **$111.20/mo** |
| Office hours saved | **31.4 h/mo** |
| Value of that time | **$1,099/mo** |

**9.9×**

**what it costs, before a single extra load**

These are example numbers, not a promise. Put in your own at haul.rocks/roi.

## HAVE THESE READY AND SETUP TAKES UNDER AN HOUR

- ✓ Your yards or quarries (addresses)
- ✓ Each truck: number, type and tonnage
- ✓ Each driver: name and mobile number
- ✓ One customer and their delivery site
- ✓ The materials you haul
- ✓ Your subs' names and emails (optional)

haul.rocks

WHY YOU CAN TRUST US WITHOUT A PHONE CALL

# Check everything yourself.

### Every price is public

From $69/month for up to 10 trucks. Plans differ only by truck count. There are no per-user fees, setup fees or contracts.

### Card details never touch us

Billing runs through Stripe. You cancel yourself from Manage billing in the app, and your plan runs to the end of the period you paid for.

### Works where your drivers are

Drivers use any iPhone or Android browser, no app store. Clock-ins and tickets save without signal and send when the phone reconnects.

### Try before you trust

The sample day shows you the real product, not a video. You can see exactly what your dispatchers and drivers will use.

### A real company behind it

haul.rocks is built by Data Decisions, Inc. in Danville, California, a five-person company that has written business software since 2004.

### We're honest about what's next

Anything not built yet is labelled as coming, never sold as done. Founding fleets help decide what we build first.

**A note from the people who build it.** We don't have a wall of reviews yet, and we won't make one up. haul.rocks is new. What we do have is 22 years of building software that businesses run their day on, and a product you can try in full before you pay anything. If something's missing or confusing, email sales@haul.rocks. We read every message and answer within one business day.

The haul.rocks team · Data Decisions, Inc. · Danville, California

## COMMON QUESTIONS

**Do I need a credit card to try it?**
No. 30 days free, no card. Without a card, the trial simply ends.

**Do drivers need to install an app?**
No. They use their phone browser on iPhone or Android, and can add it to the home screen.

**What if we grow past our plan?**
Nothing is blocked. If you stay over for 30 days, you move up a plan at your next renewal.

**Can drivers' hours go to payroll?**
Yes, with Timebridge time tracking: $4 per tracked driver per month.

**Can I cancel any time?**
Yes, yourself, from Manage billing. Your plan runs to the end of the period you paid for.

## START IN THREE STEPS

1. Go to **haul.rocks** and press Start free trial.
2. Load the sample day and press Auto-Assign.
3. Add your trucks and dispatch tomorrow. Decide in 30 days.
